

## **WELLNESS POLICY**

The Landaff School Board recognizes the importance of proper nutrition and developmentally appropriate physical activity as ways of promoting healthy lifestyles. The School Board also recognizes that health and student success are inter-related. It is, therefore, the goal of the School Board that the learning environment positively influences a student's understanding, beliefs, and habits as they relate to good nutrition and physical activity.

This policy outlines the Head Teacher's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. This policy applies to all students and staff at the Blue School.

### **LANDAFF WELLNESS COMMITTEE.**

The Head Teacher will facilitate development of updates to the Landaff Wellness Policy, subject to School Board approval, and will oversee compliance with the policy.

The Head Teacher will review and recommendations regarding implementation of and updates to this policy, and establishment of specific goals for nutrition promotion, education and physical activity.

The Head Teacher or his/her designee shall serve as the Chairperson of the District Wellness Committee, and shall maintain an updated roster of other persons serving on the Committee.

The Wellness Committee will meet quarterly to receive updates on wellness efforts in the schools and work on strategic planning for the Wellness Program.

The Landaff Wellness Committee should represent the diversity of the community, and to the extent feasible include the Head Teacher, parent, students, physical education teachers, health education teachers, school counselors, school administrators, a school board member, outside health professionals, individual school building representatives, and members of the public.

Staff appointments to the Landaff Wellness Committee will be made by the Head Teacher. The School Board Chair shall appoint the School Board member. Remaining members, other than those who are ex officio, shall be appointed and approved by the Head Teacher.

As a statutory committee, the Landaff Wellness Committee shall comply with the requirements of RSA 91-A regarding meetings.

## **II. WELLNESS POLICY IMPLEMENTATION, MONITORING, ACCOUNTABILITY AND COMMUNITY ENGAGEMENT.**

### **A. Implementation Plan.**

The Head Teacher will conduct a school level assessment based on the Centers for Disease Control and Prevention's School Health Index, using tools available through such programs as the Alliance for a Healthier Generation [\*Healthy Schools Program\*](#), and to create an action plan and generate an annual progress report. The school-level assessment/report should be completed by September 30<sup>th</sup> of each school year and presented to the Head Teacher and School Board.

### **B. Annual Notification of Policy.**

The Head Teacher will annually inform families and the public of basic information about this policy, including its content, any updates to the policy, and implementation status. The Head Teacher will make this information available via the Blue School website. This information will include the contact information of the Head Teacher in addition to how parents can get involved with the LANDAFF Wellness Committee.

### **C. Triennial Progress Assessments.**

Every three years, the Head Teacher will assess:

- The extent to which Landaff School is in compliance with the District wellness policy;
- The extent to which the Landaff School Wellness Policy compares to model wellness policies; and
- A description of the progress made in attaining the goals of the Landaff Wellness Policy. The Landaff Wellness Committee will make recommendations to update the Wellness Policy based on the results of the annual School Health Index and triennial assessments and/or as the Head Teacher's priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. The Head Teacher will act upon such assessments as required or as the Head Teacher deems appropriate.

### **D. Recordkeeping.**

The Head Teacher will retain records related to this Policy, to include at least the following:

- The Landaff Wellness Policy;
- The most recent assessment on the implementation of the local school wellness policy;
- Documentation on how the Landaff Wellness Policy and Policy assessments are/were made available to the public;

- Documentation confirming annual compliance with the requirement that the Landaff Wellness Policy, including updates, and the most recent assessment on the implementation of the Policy have been made available to the public; and
- Documentation of efforts to review and update the Landaff Wellness Policy; including who is/was involved in each update and methods the LANDAFF Wellness Committee uses to make stakeholders aware of opportunities to participate on the Landaff Wellness Committee.

**E. Community Involvement, Outreach and Communications.**

The Head Teacher will communicate ways in which representatives of Landaff Wellness Committee and others can participate in the development, implementation and periodic review and update of the wellness policy through a variety of means. The Head Teacher will also inform parents/guardians of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards.

**III. NUTRITION.**

**A. School Meals.**

The Blue School is committed to offer school meals that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;
- Promote healthy food and beverage choices; and
- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. The District offers reimbursable school meals that meet USDA nutrition standards, which may be found at:

<https://www.fns.usda.gov/school-meals/nutrition-standards-school-meals>

**B. Staff Qualifications and Professional Development.**

The Landaff Food Service Program will meet or exceed hiring and annual continuing education/training requirements in the USDA professional standards for school nutrition professionals, which may be found at:

<https://www.fns.usda.gov/school-meals/professional-standards>

### **C. Water.**

To promote hydration, free, safe, unflavored drinking water will be available to all students at Blue School throughout the school day, including mealtimes.

### **D. Competitive Foods and Beverages and Marketing of Same at the Blue School.**

“Competitive foods and beverages” (i.e., foods and beverages sold and served or marketed during the school day, but outside of the school meal programs) must meet the USDA Smart Snacks in School nutrition standards, which may be accessed at:

<https://www.fns.usda.gov/school-meals/smart-snacks-school>

These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in the cafeteria and any vending machines at Landaff School.

Except as may be provided elsewhere in this Policy, any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed the USDA Smart Snacks in School nutrition standards. Food and beverage marketing is defined as advertising and other promotions in schools, including, but is not limited to:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.
- Displays, such as on vending machine exteriors.
- Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards, scoreboards or backboards (*note*: immediate replacement of these items are not required; however, districts will replace or update scoreboards or other durable equipment when existing contracts are up for renewal or to the extent that is financially possible over time so that items are in compliance with the marketing policy.).
- Corporate brand, logo, name or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book covers, pupil assignment books or school supplies displayed, distributed, offered or sold by the District.
- Advertisements in school publications or school mailings.
- Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product.

Corporate brand names, logos, and trademarks for companies that market products that comply with the USDA Smart Snacks in School nutrition standards will not be prohibited because they offer some non-compliant food or beverage items in their product line.

Likewise, the marketing restrictions do not apply to clothing or other examples of expression which include brand information for non-compliant food or beverage items.

As the Landaff school athletic department, and parent teacher associations review existing contracts and consider new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by the Landaff Wellness Policy.

#### **E. Celebrations and Rewards.**

All foods offered during the school day on the Blue School campus will meet or exceed the USDA Smart Snacks in School nutrition standards. Foods and beverages will not be used as a reward or withheld as punishment for any reason. The Blue School Nutrition Services will make available a list of healthy party ideas to parents and teachers, including non-food celebration ideas, and a list of foods and beverages which meet Smart Snack nutrition standards.

#### **F. Food Sale Fundraising.**

Foods and beverages that meet or exceed the USDA Smart Snacks in Blue School's nutrition standards may be sold through fundraisers on the school campus during the school day. Fundraising groups are encouraged to choose non-food fundraisers, and to consider healthy fundraising ideas. Notwithstanding this provision, each school may allow up to nine bake sales or other fundraising food sales of non-compliant foods (i.e., that do not meet Smart Snack standards), which are no more than one day in duration each.

#### **G. Nutrition Promotion.**

Blue School will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will include.

- Implementation of at least 1 or more evidence-based healthy food promotion techniques in the school meal programs using methods included in the Smarter Lunchroom Movement, which may be found at:

<https://www.smarterlunchrooms.org/scorecard-tools/smarter-lunchrooms-strategies>

- Ensuring 100% of foods and beverages promoted to students during the school day meet the USDA Smart Snacks in School nutrition standards. Additional promotion techniques that Landaff School and individual schools are available through the Smart Food Planner of the Alliance for a Healthier generation, available at:

<https://www.healthiergeneration.org/our-work/business-sector-engagement/improving-access-to-address-health-equity/smart-food-planner>.

#### **H. Nutrition Education.**

Blue School will teach, model, encourage and support healthy eating by all students.

- Nutrition education shall be included in the health curriculum so that instruction is sequential and standards-based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
- Nutrition education posters will be displayed in each room in which students regularly eat their lunches.
- Consistent nutrition messages shall be disseminated throughout the school.

Schools should provide additional nutrition education that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health;
- To the extent practicable is integrated into other classroom instruction through subjects such as math, science, language arts, social sciences and elective subjects;
- May include enjoyable, developmentally-appropriate, culturally-relevant and participatory activities, such as cooking demonstrations or lessons, promotions, taste-testing, farm visits and school gardens;
- Promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products and healthy food preparation methods;
- Emphasizes caloric balance between food intake and energy expenditure (promotes physical activity/exercise);
- Links with school meal programs, cafeteria nutrition promotion activities, school gardens, Farm to School programs, other school foods and nutrition-related community services;
- Teaches media literacy with an emphasis on food and beverage marketing; and
- Includes nutrition education training for teachers and other staff.

#### **IV. PHYSICAL ACTIVITY.**

Blue School will provide physical education consistent with national and state standards. Physical activity during the school day (including but not limited to recess, classroom physical activity breaks, or physical education) will not be withheld as punishment for any reason.

In addition to recess periods provided in the ordinary daily schedule, students will be offered periodic opportunities to be active or to stretch throughout the day.

Students will be offered opportunities to participate in physical activity after school through interscholastic and intramural sports and clubs.

Blue SchoolSchool will support walking or biking to school by students and staff only if determined safe by the school Head Teacher.

V. **OTHER ACTIVITIES TO PROMOTE STUDENT WELLNESS.**

Blue School will endeavor to integrate wellness activities across the entire school setting, not just in the cafeteria or physical education and athletic facilities. In furtherance of this objective, Blue School will identify at least one activity or list of options with a requirement to engage in one or more each school year.

VI. **PROFESSIONAL LEARNING.**

When feasible, Blue School will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class).
